

# BE UNITED

Come in on "YAGOU" (first song word)

Fania's music is varied, ranging from gentle and folk-based to contemporary African beats. This song is clearly a tribute to Bob Marley. The album is called SOPI and the track is called YAGOU. [www.tinderrecords.com](http://www.tinderrecords.com)

The non-English lyrics are sung in SARAKHOLE and say:  
 "Do not forget the African mother singing to her son: Keep hope, rest your heart. Remember progress, meeting, dance, union"
