

Magnificat (Lucia Stopper)

My dance celebrates life and all the gifts that nature offers us these days: the blue skies, the flowering trees, the warm warmth of spring, early morning birdsong, starry nights, the special full moon in this month, and friends far away but close in the heart.

The dance is dedicated to Anna Barton, a loving teacher, who helped me discover with the Sacred Circle Dances the sacred path in my life and the precious gift that I could offer to others.
